NEW

12-POINT POLY LOCKS

PRW Power is excited to introduce our new 12-Point Poly Locks, available for both 3/8" and 7/16" rocker studs. Designed for precision, durability, and ease of adjustment, these Poly Locks deliver the secure valvetrain control performance builders demand.

And best of all—they're in stock and shipping now.

- **3/8" Stud Version:** .550" O.D. shank
- **7/16" Stud Version:** .600" O.D. with .550" undercut
- **Sold in Sets of 16** for complete applications
- **CNC-Machined Threads** for smooth, accurate adjustment
- **Flush-Machined Locking Screw** for a clean, locking power
- **Shouldered Wrench Stop** ensures positive and confident engagement
- **Manufactured from 8740 Chromoly Steel** for strength and long-term reliability

12-Point Poly Locks
