

CR Scotseal PRO

The CR Scotseal PRO is a unitized, one-piece hand installable design seal that offers good sealing life under most operating conditions. This seal uses a high quality NBR material that provides good temperature capability, wear resistance, and broad compatibility with synthetic lubricants.

Hand installable

- Eliminates installation problems and avoids costly "do overs"
- Ends searching for the specific tool for each seal part number

Premium sealing materials

- NBR material provides good heat resistance in normal operating temperatures
- EPDM material on the ID makes a perfect seal even on worn spindles
- Provides longer life in contaminated conditions
- Compatible with popular synthetic lubricants

Unitized design with 4 sealing lips

- Provides clean running surfaces for sealing lips
- Primary Waveseal sealing lip sweeps oil back on the bearings for cooler operation
- 3 dirt barriers keep out contaminants extending service life

Warranty coverage

- 1 year / 100,000 mile warranty

Installs quickly and correctly by hand — every time!

The CR Scotseal PRO requires two tools — your hands!

Just slightly lubricate the ID and OD of the new seal with the wheel end lubricant and press the new seal evenly into the hub. Wait 5 minutes and install the hub onto the spindle.

Designed to keep out road contamination and oil in at the bearings

NBR OD

- Easy to install
- No tools required

Primary sealing lip

- Patented Wavesal sweeps oil back to the bearings
- Bearings and seal run cooler, extending wheel end life
- Provides good heat resistance and broad compatibility with synthetic lubricants

Bumper, axial and radial dirt lips

- 3 dirt barriers keep out contaminants
- Bumper lip acts as a primary dirt excluder
- Added bearing protection

EPDM ID

- Easy to install
- Perfect seal even on worn spindles
- Optimized sealing life under virtually all driving conditions
